## The Old Reliable Jewelry House

Hopkinsville is, after all, the best place to get anything in the Jewelry line. There's a record behind us, a record of over forty years of trust and of satisfied customers, a record of honest dealing, for honest quality, honest prices. It's a record any Jeweler might feel proud of. And when we sell an article we have in mind that we have a record to maintain, and no shod methods, no careless workmanship, no lack of quality, is ever allowed to mar the record of the past. But to improve, if possible, this record, is ever our aim, and goods are sold for as low a price as it is possible to sell reliable goods.

It will pay you in the end to deal with the Old Reliable Jeweler.

## ALL SHOWS OPEN TODAY

Fall Festival Features Cannot Fail to Draw Freely.

## SWELL GREAT CROWD.

If Weather Continues Good Big Success is Assured.

Shows for the great Fall Festival and County Fair came in yesterday on every train. Some of them were late arriving on account of the delayed trains on both roads, but they all "got here all the same." Of course they were a little late in getting up their canvasses, but that could not be avoided.

Everything will be in full running order today and visitors are assured by those having the matter in hand that every exhibition merits their most liberal patronage. The specialties are of a high order, the free attractions are of a superior character and the Fraternal Union has done everything in its power to furnish the people with the best of everything to be obtained. There is no connection between any of the eighteen or twenty attractions, and everybody may expect a glorious time during the entire week. Should the weather clerk give us such weather as he furnished yesterday, thousands of people will go out to Mercer Park every day.

The managers expected to offer an extra inducement last night by having Lebkuecher's band treat them to an open air concert. The band is the best musical organization, probably, that the city has ever had. It is really one of the city's institutions, or should be, and the people appreciate it and everybody ought to encourage it. The members of the band are all gentlemen and industrious citizens and it is to be hoped that the organization will remain intact for many years yet to come.

Everybody is invited to go out to the Festival grounds and swell the crowd to immense proportions. This is the last thing of its kind for the remainder of the year, and if you let this week's event pass to obtain recreation your chances are gone. Turn out and encourage which appeal to every good parent and citizen.

## MORE TOBACCO BURNS.

Barn in North-east Christian Destroyed by Flames.

A tobacco barn containing ten acres of the weed, the property of Mr. Samuel Johnson, of the Johnson's Mill country, north-east Christian, was destroyed by fire a few nights ago. The barn caught while the tobacco was being "fired" and the building and its contents were reduced to ashes in a very few minutes. Mr. Johnson is an extensive grower and the tobacco destroyed represents only a portion of his crop. His loss is about \$800.

## AT BAPTIST CHURCH

Rev. S. J. Cannon Preached Two Sermons Sunday.

Rev. S. J. Cannon, of Elkhorn, supplied the pulpit at the Baptist church Sunday morning and evening, preaching to large congregations at both services. Dr. Cannon is one of the ablest ministers of the Bethel Association and his sermons were strong and earnest discourses.

## Only Two.

Since our last issue only two arrests have been made by the police, one for drunkenness and one for breach of the peace. It is expected that "business will pick up" by the end of the week, as this is a Festival week.

## GOOD WORK BY CONVENTION

Resume of the Matters That Were Acted Upon Last Week.

## STATE DEVELOPMENT.

Commission Will See That Kentucky Is Represented At Jamestown.

Winchester, Ky., Oct. 15. - Having surpassed all previous meetings of the kind in point of important work accomplished, the Fifth State Development convention, which was declared adjourned here last week by Senator William Lindsay, the chairman, is believed to have marked the beginning of a new era of systematic advancement of the various industries and resources of Kentucky.

"It has been the greatest convention of the kind ever held," said Captain W. J. Stone, chairman of the State executive committee. "We have done more work and have placed the development of the State in the hands of a permanent organization, which will make possible the successful handling of all big matters in a business like and positive fashion. The results of this convention are too great to be realized at this time."

## What Convention Did.

Following is a resume of the more important matters on which the convention took action.

Creation of a permanent organization, with headquarters in Louisville.

Appointment of a commission representing the state at large for the purpose of providing a Kentucky exhibit at the Jamestown exposition.

Opening of a more vigorous campaign for reformation of the tax system of Kentucky, and the appointment of a representative committee to undertake the work.

Request that the general assembly make more liberal appropriation for the state college, in the interest of the education of young men in lines of scientific agriculture.

Expression of endorsement of the state geological survey for the work accomplished by it, and a recommendation that it be given more financial encouragement.

Endorsement of a plan for inducing desirable immigration to Kentucky.

## HAYDON TRIAL IS UNDER WAY

Jury Made Up With Little Delay Yesterday.

## BIG ARRAY OF COUNSEL.

Policeman Amos R. Haydon Charged With Killing John Coleman, Col., June 1.

The trial of officer Amos Haydon was begun yesterday and in an hour's time the following jury was made up:

P. C. Crews, Joe Pace, Bud King, T. C. Harry, J. E. Hays, John McGee, Marion West, J. T. East, Chas. Spurlin, W. R. West, Jno. W. Tucker and Walter Faulkner. All but the last three were from the regular panel.

Haydon is a policeman who was at the carnival held at Mercer Park on the night of June 1st, off duty, in citizens clothes. A negro named John Coleman broke down a panel of the fence in climbing over and fell inside. He jumped up and ran into the crowd pursued by two officers. He ran through the crowd when Haydon joined in the pursuit and chased him between two tents calling to him to halt and fired two shots in the air to stop him. A third shot was fired by some one else at the negro and he fell mortally wounded. Haydon fired the next morning. Haydonhardt his pistol to an officer and it had only two empty cartridges. He was indicted for involuntary manslaughter.

There are more than fifty witnesses in the case and many lawyers, Commonwealth's attorney Smith and County Attorney Duffy are assisted by Polk Cansler and L. Yonts.

The defense is represented by Breathitt and Bell, John Feland and Southall and Son. The defense will file that some other person than Haydon shot Coleman.

The trial will occupy two or three days. Haydon is under bond and will remain so during the trial.

## Grand Jury Adjourns.

The grand jury adjourned Saturday, after finding 100 indictments. Among the last batch were indictments against the Acme, Crescent and Hopkinsville mills, charging an unlawful conspiracy to raise the price of bran and for violating the law in not labeling sacks of bran, giving an analysis of the contents. Several doctors at Crofton were indicted for giving prescriptions for Sunday liquor drinking.

## FELL ON HIS HEAD

And Youth Was Quite Badly Injured.

Dennis Jenkins, aged 14, who resides on Durrett avenue, was the victim of a very painful accident Friday. He was riding horseback when the animal became frightened and started to run off. The horse fell and the rider was thrown violently to the ground. Jenkins fell on his head and his neck was hurt quite badly. He also sustained several ugly bruises on his face. His injuries will lay him up several days. The horse also injured himself in the fall. Had it not been for a stiff-brimmed cap, which partially broke the force of the fall, the youth's neck would probably have been broken. As it was he had a very close call with his life.

## Married Monday.

Mr. Fred S. Calhoun and Mrs. L. F. Wortham were married yesterday at the residence of Mr. Myers on Elm street. The bride has been employed in the dry goods department at Anderson's and the groom employed by the I. C. railroad company as a carpenter. Rev. J. M. Bassett officiated.

## STORE NEWS

## At Anderson's.

The opening is over and now we are settling down to work in earnest. The season is right on us and customers should attend to their wants at once to get choice of styles. Our Ready-to-Wear Department is receiving something new every day. Specials in this department can be furnished very promptly now, but a couple of weeks from now it will require twice as long. The \$5.00 fine All Wool Long Cloaks and the \$10.00 Fine All Wool Lymanville Storm Serge Suit we are showing will cost half as much more at any other store, and so will they at our store when our present stock is sold out.

## Our Shoe... Department.

Was never so well equipped to supply the wants of all classes as it is to-day. Prices are some higher, but you may depend upon the quality being the same as heretofore. Any merchant who offers to sell the same shoes at old prices to-day has either been swindling his customers in the past by charging more than the shoes were worth, or is deceiving them as to the quality.

## Winter Underwear

This is the month to buy Winter Underwear. Our stock is complete and has all sizes from infant's to the largest men and women. Some special bargains in men's extra sizes.

rooms accommodating 50 persons each, and two rooms for supers, accommodating 50 each; a ballet practice-room of not less than 1,600 square feet; three rehearsal-rooms, the largest to have an area of 2,000 square feet; a central green-room, or artist's room; a stage; a general wardrobe saloon, having 1,000 square feet of floor space; two rooms for musical directors, and three rooms for stage managers; carpenter-shops, paint rooms, scenic ateliers, and quarters for painters and charwomen. A separate wing, possibly a building by itself, is attached to house a school of drama and opera, having its own stage concert hall, and a dozen or more class rooms. Finally, provision is made for a library annex, in the nature structurally of a fire-proof vault, in which will be kept copies of all plays in the repertory of the repertoire, together with standard works on the literature of the drama, music, costumes, etc., which will be at once convenient to the stage and the school, and accessible from the street for the use, on occasions, of the general public.

Architecturally, the interior of the new theater will embody features of representative modern European playhouses of the first class. Although the greatest distance between the curtain and the line of the front of the boxes is not to exceed 65 feet, the seating capacity of the auditorium will be 2,000, exclusive of the boxes, which may number 60. Grand staircases, and a foyer placed approximately on the level of the upper tier of boxes, will help to give scope for an architectural ensemble of decorative elements, mural paintings and sculptured scenes intended, eventually, to be what the Theater Francais and the Opera of Paris are to France—a national monument.

According to the plan adopted by the directors, four hours daily will be devoted to drama and two to opera. Each season, it is expected, ten or more new plays will be staged. Aside from the stimulus to dramatic art derived from the competition for a yearly prize which will be offered for the best play by an amateur playwright, Tyrrell points out other advantages:

American dramatists would have an incentive to original effort, which hitherto has been denied them. The systematic and thorough presentation of standard plays, both of English and American origin, would be properly spoken by intelligent players, costumed with some degree of correctness and taste, would give the public new ideas, raise the art of acting to something nearer its true dignity, and ultimately lead to the creation of that in which our proud republic is desperately lacking—an America dramatic literature.

## ENDOWED THEATER

PLAYHOUSE THAT WILL WORK FOR ART AND NOT PROFITS.

WEalthy New Yorkers to Erect Fine Building, Which Will Be Dedicated to the Highest Forms of Drama.

New York is to have a theater which is to be run in the interests of the drama alone, and not for the profits. A committee of wealthy New Yorkers, realizing that there was no independent school of acting for the conserving and handing down to posterity the already fading traditions of Booth, Wallace, Barrett, Warren, Jefferson, Mrs. Gilbert and Mr. John Drew, have endowed an institution to which the actors of the higher forms of the drama will have opportunity of expression and development. The new playhouse will stand on Central Park West, between Sixty-second and Sixty-third streets.

The style of the structure is distinctly Italian Renaissance; nevertheless, it will look unmistakably like a theater on the exterior, as well as inside.

The upper porting of the scene, as is not uncommon for European playhouses, extends well above the main building, being covered by a roof which slopes toward the rear and ends with a pediment in front. Between the columns which elaborate the front wall are the arched windows of the foyer, and the auditorium proper is sheltered by an oval dome above the main cornice.

The theater will be entered at the main entrance is connected with the balconies by wide stone staircase, situated at the turrets in the corners of the building. The exterior of the building, as pictured, has an impressive beauty, and that it will add to the architectural splendor of New York City.

The exterior of the building will probably be of white limestone, but the interior will mainly in marble. It is estimated that the structure will cost at least \$1,500,000, and that at least three years will be required to complete it.

The theater is to have a stage 100 feet wide and 85 feet deep, 40 commodious dressing-rooms, four chorus-

## THE PLAIN TRUTH.

What More Can Hopkinsville People Ask?

When well-known residents and former residents, highly-respected people, make such statements as the following, it must carry conviction to every reader:

W. H. West, stock raiser, city constable and collector, who lived at 549 West Seventh St., said: "I suffered for years, with kidney and bladder troubles, and in consequence was subject to a great deal of pain. When I had a bad attack, I lay in the small of my back over my right hip and extending down over the bladder. The pain became especially severe if I should stir around or remain long on my seat. The difficulty of the kidney secretions caused me at all times when I was scarce irregular, and the passages were accomplished with a burning sensation. I heard so much about Doan's Kidney Pills that I got a box and gave them a trial. I found that they benefited me in every way, much so that I told my physician to prescribe them for my friends. I hope that it will be the means of relieving others who may be suffering from that common complaint, 'kidney trouble.'

Representative John Wesley  
Gaines, of Tennessee, has dug up an  
old senate committee report which  
appears to establish a precedent, on  
the authority of both Democratic  
and Republican leaders, of W. J.  
Bryan's suggestion of the ultimate  
ownership by the governments, state  
and national, of the railroads. The  
report was made in 1886 and was  
signed by three Republicans and two  
Democrats. The signers were Cul-  
lum, of Illinois; Platt, of Connecticut;  
and Miller, of New York, Repub-  
licans, and Gorman, of Maryland,  
and Harris, of Tennessee, Demo-  
crats. The report advances the  
opinion that it will probably be found  
necessary, ultimately, to place all  
railroads under government own-  
ership. This appears, says the report,  
to be the best means for obtaining  
the highest perfection in service and  
for maintaining uniform and equita-  
ble rates.

Stories of newspaper life that  
have made any lasting impression are  
few. One that will be certain to be  
remembered opens the October num-  
ber of the Smart Set. William R.  
Lighton is the author, and he has  
chosen the appropriate title of "The  
Rules of the Game." The great hu-  
man note in the story will make a  
strong appeal to every reader, and  
the clever way in which the plot is  
manipulated will win admiration.

**TRAMPS IN WRECK.**  
Broken Flange Causes Train  
to Leave Trestle.

Henderson, Ky., Oct. 13.—Fifteen  
freight cars on the L. & N., about  
midnight left the trestle on the  
trestle on the Indiana side of the bridge  
across the Ohio river at this point, as  
the result of a broken wheel flange.

Several tramps were known to  
have been riding on the train and  
two were extricated from the wreck  
this morning and taken to the City  
Hospital at Evansville. Both  
had legs crushed and amputation  
was necessary. They refused to  
state their names. About a dozen  
others are believed to be under the  
debris. The train crew escaped  
practically unharmed.

Over a hundred feet of the trestle  
was completely demolished.

**STONEWALL JACKSON**

Subject of Lecture to Be De-  
livered Tonight.

Col. Geo. M. Edgar, of Lexington,  
Ky., will deliver his lecture, "Stone-  
wall Jackson," under the auspices of  
the Confederate Veterans and the  
Daughters of the Confederacy, at  
7:30 p. m. Tuesday, the 16th inst., at  
9th Street Presbyterian church.

This lecture has been highly com-  
mended by the press of Central Ken-  
tucky and of the Virginias as taking  
rank with the best on the platform,  
and is on a theme which should ap-  
peal to all who admire heroism and  
exalted character united with the  
highest order of military genius, and  
Col. Edgar should be greeted by a  
representative audience of Christian  
county people.

The lecturer is well known by quite  
a number of our people as a man  
who has achieved distinction both as  
soldier and educator, and few are so  
well qualified to discuss the char-  
acter and achievements of the great  
hero, whom he knew personally—  
having been his pupil at the Virginia  
Military Institute. An admission of  
50 cents will be charged.

We append some press notices of  
the lecture selected from many:

Col. G. M. Edgar lectured at Curry  
Hall Friday night on Stonewall Jackson.

Those who were present enjoyed  
the able address delivered by one so  
thoroughly familiar with so great a  
subject. Col. Edgar is a most pleasing  
speaker and presents his views  
quite forcefully. He is certain to  
make a great platform success of this  
new lecture on the great military  
genius of the South.—Lexington,  
Ky., Leader.

Those who failed to hear the splen-  
did address of Col. Edgar at the  
court house last Tuesday night  
missed a rare treat.

From a literary standpoint it was  
eloquent, dramatic and inspiring; the  
historical setting was accurate, faith-  
ful and impartial, and as a delineation  
of the superb character of Stonewall  
Jackson it was masterly and complete.—Hinton, W. Va., Leader.

Before a Representative, deeply  
interested audience, he held in  
the closest attention, Col. George M.  
Edgar delivered his superb lecture on  
Stonewall Jackson in the Town  
Hall here last Friday evening. By  
unanimous verdict it was pronounced  
excellent from every view point. The  
lecture was not simply a panegyric  
on a great soldier, but a discriminating,  
military criticism of Jackson's  
wonderful campaigns, showing his  
incomparable genius for war and his  
skill as a strategist.—Greenbrier, W.  
Va., Independent.

discovered after years  
of scientific research  
by Dr. Kilmer, the  
author of this article and  
bladder specialist, and is wonderfully  
successful in promptly curing lame back,  
uric acid, catarrh of the bladder and  
Bright's Disease, which is the worst  
form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recom-  
mended for everything but if you have  
kidney, liver or bladder trouble it is  
bound to help you. It has been  
tested in so many ways, in hospital  
work and in private practice, and has  
proved so successful in every case that  
a special treatment has been made by  
all readers of this paper who have  
not already tried it, may have a sample  
bottle sent them and may learn  
more about Swamp-Root, and how to  
use it if you have kidney or bladder trouble.

**WRONG NEGRO**

Arrested As a Suspect Near  
Cerulean Springs.

A negro bearing some resemblance  
to Godfrey Ray, the negro who  
killed Marshal Dickinson at Trenton  
Sept. 8, was arrested near Cerulean  
Saturday and brought here at 6:15  
the same evening for identification.

The negro was in charge of J. B.  
Thorn and Mr. Barefield. He was  
taken to police headquarters, but it  
was soon established that he was  
not the man wanted for the murder  
of the officer and he was turned loose.

The negro was a stranger in the  
Cerulean neighborhood and had  
been in that section since a few days  
after the Trenton tragedy. While  
he did not answer fully the description  
of Ray, suspicion was strong that  
he was the man and he was taken  
into custody. When he was arrested  
he disclaimed any knowledge of the  
affair, said that he had never been in  
Trenton, and professed his willingness  
to be taken to that place, provided  
he would be properly protected.  
When released he immediately left for Cerulean.

#### NEGRO PROBLEM

#### Attracting Attention of Georgia's Wisest Statesmen.

LaGrange, Ga., Oct. 10.—At the Georgia home-coming exercises here today Governor-elect Hoke Smith delivered an address on the race question in the South, in which he said that the fourteenth amendment to the constitution hinders the most intelligent mode of handling the subject.

"Our national government," Mr. Smith continued, "has always legislated for the Indians, placing around them restrictions entirely different from those applied to white men. But for the fourteenth amendment to the constitution, we should follow the same plan in Georgia with reference to the negroes. The white man must accept full responsibility and control of the situation. This is the white man's country, and it is the white man's burden. The negro should be encouraged to help. Kindly but firmly the large majority of negroes must be supervised and directed by the white man. The fact should be kept in mind that a very large number of negroes are irresponsible, and when left in idleness are prone to crime. We must exhaust all legal means to save negroes from idleness."

Governor Smith advocated stricter laws and the arrest of loafing, wandering negroes as probable criminals.

He also said the system of negro education should be changed, and that honest labor should be taught as being more important than knowledge acquired from books.

#### DIES OF APOPEXY.

#### Matt. E. Ham Expires Suddenly in Paducah.

Mathew E. Ham, of Paducah, formerly of this city, died suddenly Saturday morning at his home, of apoplexy. He had been bad health for several days, and about 2:00 o'clock in the morning he arose. While sitting on a trunk he fell to the floor and expired in a few minutes. He weighed about three hundred pounds and the noise of his fall attracted members of the family.

Mr. Ham was 44 years old and was born at Paradise, Muhlenburg county. He was for some time engaged in business in Hopkinsville and later sold goods at Beverly and Julien. For the past fifteen years he had been a traveling salesman, with headquarters the most of the time at Paducah. Hopkinsville was included in his territory and he was here on a business trip not long ago. He is survived by a widow, who was formerly Miss Lena Ewell, and two daughters, Miss Carrie and Miss teacher of the public school at Paducah, and Miss Ethel Ham. He is also survived by a brother, Luther Ham, who lives in Muhlenburg county.

The interment took place in Paducah Sunday.

GIRL'S APRON WITH ROUND OR  
SQUARE NECK.

5576

Pattern No. 5576—A square bertha  
adorns this pretty little apron, made  
of white crossed-hatched muslin,  
printed with insertion and edging.  
The pattern provides for either round  
or square neck, and pockets are a  
useful addition that will be appre-  
ciated by the young woman. The  
use of the material softens the fullness at  
the back. Lawn, gingham, chambray  
and linen are all suggested for the  
making. The medium size will re-  
quire two and one-eighth yards of 36-  
inch material. Sizes for 3, 4, 5, 6, 7, 8  
and 9 years.

This pattern will be sent to you on  
receipt of 10 cents. Address all orders  
to the Pattern Department of this paper.

Be sure to give size and number of pat-  
tern wanted. For convenience, write

A MISSSES' PRETTY SHIRT-WAIST.

5620

Pattern No. 5620—This dainty de-  
sign for a blouse waist is unusually  
attractive. Fine tucked in front  
and a pretty insertion in the back  
that is very becoming to the youthful  
figure. A yoke strap is arranged un-  
der the square cut neck, but if pre-  
ferred it may be omitted, and the  
edge finished by a tiny frill of lace.  
White lawn was the material chosen  
but any other light-colored cotton  
will be suitable. The medium  
size requires two yards of 36-inch  
material. Sizes for 14, 15, 16 and 17  
years.

## NEW PLANT LIFE

DR. MACDOUGAL SUCCEEDS IN  
ORIGINATING NEW SPECIES.

Marvin in Botanical Science Which  
the Director of the Carnegie Insti-  
tute at Washington Is Accom-  
plishing.

The task of originating entirely new  
species of plants has been accom-  
plished, and Dr. Donald MacDougal,  
now your assistant Director of the  
New York botanical garden, several  
months ago appointed director of  
botanical research at the Carnegie  
Institution, in Washington, claims the  
honor of the discovery.

In his investigation on the origin  
of species Dr. MacDougal has pursued  
lines similar to those followed by  
Prof. Jacques Loeb, of the University  
of California, in his investigation of  
the origin of animal life, but Dr. Mac-

Donald

is the first to have succeeded in origi-

nating new species of plants. His success  
was soon phenomenal. Doctors and  
farmers called him to him from all over  
the country to have him originate new  
plants.

Dr. MacDougal's secret lies in his  
ability to stimulate the plant to grow  
without the aid of ever having had  
any contact with the soil.

## TO DIZZY HEIGHTS

PERILS WHICH THE MOUNTAIN CLIMBER ENCOUNTERS.

Duke of Abruzzi, Cousin of King of Italy, Wins New Honors in Scaling Mount Ruwenzori, in Africa.

New interest has been aroused in mountain climbing by the recent achievement by the duke of Abruzzi, who has just succeeded in scaling Mount Ruwenzori, in Africa. Thefeat was attended by many perilous feats, and the duke established a new record by scaling a peak 16,000 feet above the level of the sea.

Mountain climbing is a sport in which only those of the steadiest nerve and strongest physique can indulge successfully. It is one thing to follow a guide up over the mountain trail, but it is quite another to scale precipitous heights, where it would seem that not even an agile mountain goat could climb. In such climbing, death stalks constantly at one's side, and a misstep may plunge one down hundreds of feet to death.

Only the other day Max Eicher, a distinguished member of Washington's mountain club of much experience, was climbing the Ruxalpe, about 50 miles from his home, when he misjudged a stone on which he attempted to support his weight. He thought it was firmly anchored in the mountain mass, but it gave way, and dropped from under him, and the unfortunate mountaineer was dashed over a precipice and fell 600 feet to his death.

The hair of the greenhorn naturally stands on end when he sees men, hundreds of feet in the air, clinging to rock walls that are sometimes perfectly perpendicular. It is not safe for a few feet, even overhanging, but overhanging walls are climbed every summer, and it is a fact that accidents seldom occur.

In our illustration we see a single member of a party of four Italian mountain climbers who were spending their summer play in the Alps. The picture was caused, as they were climbing up the walls of the Aiguille Verte, near Mont Blanc. They followed the winding course of the Mont Blanc glacier up to the base of the great crystalline spire, which they intended to surmount. On the side of the needle where they had planned their ascent its broad base rises in a wall that approaches the

Scaling the Aiguille Verte, Near Mont Blanc.

vertical and in some places is actually vertical to a height of about 150 feet.

This wall had to be climbed, and for two hours the party was glued to the precipitous face of the rock before they reached the place above where the mountain climbers were in a condition of greater safety, due to a condition of greater crevasses, cracks, ledges and steps, which greatly diminished the labor of the remainder of the ascent.

Above the point shown in the picture the party came to a ledge some two feet in width, and only a few feet in length. Here the men were gathered to the ledge examined the wall front before him, and reported to his comrades below. He found a perfectly perpendicular face of granite, smooth and polished, without a single protuberance or crack that might be gripped. He then found a most impossible bit of rock root to a height of about 12 feet, and the ledge was so short that there was no way to circumvent the smooth wall, which, a climbing proposition was out of the question. The others crept up to the ledge and a council of war was held, and the conclusion was that the impediment could be overcome.

The tallest man of the party took his place on the two-foot ledge with his face and body pressed against the wall and his arms extended along it. Two of the men helped the next tallest to his shoulders, and he was secured in a firm grip above the wall. Then the rope was brought into play, and the man above used it to make the ascent of the two other men easier from the shoulders that were doing such excellent service. The three men above then had no difficulty in pulling their comrade up to the ledge, and the party went on its way.

In rock climbing, the descent is always more difficult than the ascent, and the rule is absolute among mountaineers that they must attempt no ascent of this kind unless they are perfectly certain that they can make the descent.

TORREY & ALEXANDER.

Will Hold Revival at Nashville Until Nov. 11.

The great evangelists, Torrey and Alexander, opened services at Ryman Auditorium, Nashville, Sunday night. The meetings will continue until November 11. The singing is to be under the direction of Mr. Alexander, assisted by a choir of 800 voices. Owing to the serious illness of Mrs. Alexander, Prof. Tanner, will have charge of the singing until Mrs. Alexander improves.

The meetings have been extensively advertised and reduced rates will be given by all railroads running into Nashville. Quite a number of people here have already signified their intention of going over to Nashville during the four weeks meeting. Inquiry was made at both railroad stations yesterday but neither of the agents had received instructions as to what rate to put on or anything in regard to the matter. As soon as the agents have been directed as to what rate to make we will notify our readers.

The L. & N. has put on a rate of one and one-third fare plus 25 cents, on the certificate plan, which makes the round trip \$3.11. According to this plan the holder of the ticket will have to attend the meeting and have the proper person to certify that he has done so, when his return to this city costs him only 97 cents. Tickets on this plan will be on sale any day of the meeting.

To Whom It May Concern.

This is to say that I have received a draft from Maryland Casualty Co. in settlement of claim for disability due to appendicitis contracted four days after issuance of policy. The claim was settled within four days of receipt of the papers and their promptness does great credit to the company. Both the company and their agent, Mrs. Salie McDaniel Richards, have my thanks for their prompt and full settlement.

## "SIMPLE SIMON SIMPLE"

Clever Combination of Operetta and Farce.

The one genuine novelty of the theatrical season, "Simple Simon Simple," will be the attraction at the opera house next Thursday night, Oct. 18. "Simple Simon Simple" is a cartoon, musical extravaganza and is Nixon & Zimmerman's newest and best production. It is a clever combination of old English pantomime, operetta and farce, and requires a strong singing company of sixty people to interpret it. Simon Simple and his colored companion in mischief, Mose, are the central figures about whom the story revolves. Simon and Mose are two of the best known cartoons now before the public, and are to be seen every Sunday sporting in the colored comic supplements which every city newspaper issues on that day. Associated with these mischievous youngsters will also be found Judge and Mrs. Simple, Hans Spiegelberger, the joking German; Tony, the Dogo; Swatney, the Cop, and numerous other cartoon personages, all of whom assist in making "Simple Simon Simple" the "frenzied fun festival" the New York Herald proclaimed it to be when in that city. The plot deals with the efforts of Simon's wicked uncle to get him to quit home and become his own master, hoping thereby to secure control of his nephew's share of an estate. Life with Sig Sauter's circus is the alluring bait which tempts Simon to leave his roof tree, but in the end he proves to his enemies that he is not so simple as he looks, and the tables are turned in a surprising manner. Wm. C. Welp and Jerry Sullivan will be seen as Simon and Mose respectively, while Wally Clark, W. F. Smith, Walter Lieberman, George W. Lewis, Drury Reeter, Maggie Baxter, Bessie Browning and Rachel Strirling ably sustain their various roles.
